

Douglas Ferimer, PTA lives in Houston, TX with his wife Ashley and their small son Burke. In his spare time, he likes to spend time with his family, travel, and loves to read and watch movies. He is a native Houstonian that found a passion for Physical Therapy because he wanted to help people recover from illness and injury.

He graduated from the University of Houston in 2018 and took a special interest in Lymphatic Care in 2022. He was drawn to Lymph care because he feels like more people should know about Lymphedema and Lipedema. He enjoys educating people and helping them to become more independent with their lymphedema management.

Doug chose Lymphwell because he feels like he is a valued member of a great team on a mission to help people take control of their wellness and health.
